

Committee Meeting 2nd December 2009

Overall Report

Well, for reasons that are even more less than clear, I was asked to cover the meeting last night, in what was a diabolical turnout on a very cold night, but we somehow managed to get through a number of optics and actions, with most coming my way?

Fur and Feather

Will be held on the **Saturday 27th December**

The fishing draw will be made at 08:00, fishing from 08:15 to **only** 10:45, the clay shoot will commence at 11:15, no guns are to be fired prior the close of the fishing match. Fines will be in place if anyone wants to pop their corks before the end of the fishing match.....**you have been warned!!**

Mowgoli, Baz and Co, are organising the fishing match, Steve Leader is running the shooting side of things.....**BUT** Please come along and join in, it's really is great fun!!!!!!!!!!!!

The fee for the fishing match is **£10**, with an extra levy for the clays of **£10**, guns, cartridges clays and equipment will be provided by the Black Bank Shoot.

Bacon rolls, mulled wine, Port and sandwiches will be available from 07:15 in the BBQ area. these will be funded from the entrance fee for the match.

What has always be a mystery for most, the event has be re-visited, therefore you have to catch the most, or the heaviest fish to get into the play off for the shooting session. Anyone that has caught now't, , but won't be considered in the final tally up! However, all can have a shoot... If no one catches anything, the clays shoot will be the deciding vote.....so if you catch a small stickleback you could be in with a chance!!!!

There will be a trophy available for both the fishing side, clay side and collective (which is a poxy thing IMO) But Mr Sturt will probably win all three anyway!

Fishing Lodge (Cabin)

Brought up again, and it is assumed that the lodge will be located around the side area of Peg 9 (or above the Hankie) Hardcore will be available from members of the club, and we ask that we need support from other members of the club to help us locate and build and fit out the unit.

It is also assumed that the unit will be fairly large, with carpet tiles, sofas, pictures of fish from the lake, and a small outside seating area, with hanging baskets and pot plants.....HmMMM

The Cabin will **not** be funded from the club....if it is agreed and we get planning permission..

TBD at the next meeting

Fish relocation

Another regular optic, we have been offered a number of fish FOC, but there is still huge debate as the legality and risk associated with the transfer of fish between waters. We need to take advice from members of the EA before we do anything....

Memberships 2009

Due to the current economic climate, it was suggested that we reduce the annual membership fee. However, after discussions with the Chairman he has decided this is not an option, but senior membership will not be increased this year and remains at £65.

New Pit Boats

I have been assured by Steve that the boats we have purchased from Graffham Water will be picked asap. These will require an amount of TLC, and are hoping that we can sell one off to cover the other one (not coming from club funds)

The old boat will be burnt before it kills some Fotze (that's German BTY)

Club Meetings

The meetings will continue to be held in **The George**, at 07:15-30 on the first Tuesday of each month. Food will be provided. I am to speak with Dai to arrange a shelf in the pub that will be home to all the clubs trophies, however, I only know where two of these currently are (Hampton's Cup and Junior Cup) could anyone who has clubs trophies please return them to me asap.

Next Meeting will be Tuesday

Web Cam

Steve is to discuss with our resident IT Guru (Billy) the technical aspects of installing and monitoring a web cam at the pit.
